**Notes to Financial Statements**  
**December 31, 2020 and 2019**

**Note 1: Description of Plan**

***General***

The following brief description of the New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information. The Plan, established January 1, 1977, is a noncontributory defined benefit pension plan sponsored by New York Community Hospital of Brooklyn, Inc. (NYCH). The Plan covers substantially all the sponsor's employees. It is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was amended and restated effective January 1, 2012 to comply with the qualification requirements under the Internal Revenue Code, as amended, and qualification requirements identified for Cycle A Plans in the 2012 Cumulative List issued by the Internal Revenue Service in Notice 2012-76.

All employees are eligible to participate and become members in the Plan on the January 1st of the year nearest attainment of 18 months of service (which incorporated at least 1,000 hours over a 12-month period) and the employee age 20 1/2.

***Pension Benefits***

Under the Plan, a participant is eligible for normal retirement benefits upon the later of attaining age 65 or the completion of 5 years of service. The normal retirement benefit for employees is an annual amount equal to 1 percent of the participant's average final compensation (the average of the highest 5 consecutive years of participation within the full 10 consecutive years of participation immediately preceding retirement), multiplied by the years of benefit service up to 30 years. The minimum normal or delayed retirement benefit cannot be less than \$100 per month. The maximum compensation used in the calculation of retirement benefits was \$285,000 for 2020 and \$280,000 for 2019.

If a participant terminates employment before their normal retirement date, the participant's benefit is calculated as 1 percent of average final compensation (the average of the highest five consecutive years of participation within the 10 full consecutive years of participation immediately preceding termination), multiplied by the years of service the participant would have accumulated if the participant remained employed until normal retirement date, limited to 30 years, and then multiplied by the ratio of the participant's years of participation at termination date to years of participation the participant would have accumulated if the participant remained employed until normal retirement date.

***Death and Disability Benefits***

A participant's beneficiary is eligible for death benefits if the participant dies in active service, or while accruing service, while disabled or if the participant dies after retiring or after terminating with entitlement to a vested benefit, but in either case before the participant's benefit payments commence. The death benefits will be payable to the participant's beneficiary for life if the beneficiary is a surviving spouse unless the spouse elects the benefit paid in the form of a lump sum. All other beneficiaries are paid out in the form of lump sum payment.

**December 31, 2020 and 2019**

***Funding Policy***

The Plan's funding policy is for NYCH to contribute an amount which will meet or exceed the annual minimum funding requirements of ERISA. In 2020 and 2019, the plan sponsor's Board approved contributions of \$975,338 and \$872,335, respectively. As of December 31, 2020 and 2019, \$351,002 and \$366,448, respectively, was outstanding. These were remitted to the Plan subsequent to year-end and, as such, these amounts have been reflected as contributions receivable in the accompanying statements of net assets available for benefits. The sponsor's contributions for 2020 and 2019 exceeded the minimum funding requirements of ERISA. Although it has not expressed any intention to do so, the sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

**Note 2: Summary of Significant Accounting Policies**

***Basis of Accounting***

The accompanying financial statements are prepared on the accrual basis of accounting.

***Use of Estimates***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

***Administrative Expenses***

Trustee fees and clerical fees are paid from plan assets. Fees paid to Vanguard Fiduciary Trust Company for investment management services are paid by the Plan as a reduction of investment income. Actuary, accounting and insurance fees are paid by the plan sponsor.

***Payment of Benefits***

Benefit payments to participants are recorded upon distribution.

***Investment Valuation and Income Recognition***

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

**Note 3: Certification of Plan Trustee**

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified the following information included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments and non-interest-bearing cash as shown in the statements of net assets available for benefits as of December 31, 2020 and 2019
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2020 and 2019
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2020 and the accompanying schedule of reportable transactions for the year ended December 31, 2020

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information included in the financial statements and supplemental schedules.

**Note 4: Disclosures About Fair Value of Plan Assets**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

#### **Recurring Measurements**

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2020 and 2019:

<b>2020</b>				
<b>Fair Value Measurements Using</b>				
	<b>Quoted Prices in Active Markets for Identical Assets (Level 1)</b>	<b>Significant Other Observable Inputs (Level 2)</b>	<b>Significant Unobservable Inputs (Level 3)</b>

<b>2019</b>				
<b>Fair Value Measurements Using</b>

	<u>\$ 11,909,850</u>	<u>\$ 11,909,850</u>	<u>\$ -</u>	<u>\$ -</u>

The following is a description of the valuation methodology and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of financial position, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2020 and 2019. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

## Employees' Pension Plan

### Notes to Financial Statements

#### December 31, 2020 and 2019

### ***Investments***

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

### **Note 5: Accumulated Plan Benefits**

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and credited service. The accumulated plan benefits for active employees are based on their compensation during the five years ending on the valuation date. Benefits payable under all circumstances – retirement, death, disability and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits at January 1, 2020 were as follows:

Vested benefits	
Participants currently receiving payments	\$ 4,051,330
Other participants	9,341,490
	<hr/> 13,392,820
Nonvested benefits	<hr/> -
	<hr/>
Total actuarial present value of accumulated plan benefits	<u><u>\$ 13,392,820</u></u>

**New York Community Hospital of Brooklyn, Inc.**  
**Employees' Pension Plan**  
**Notes to Financial Statements**  
**December 31, 2020 and 2019**

Changes in actuarial present value of accumulated plan benefits were as follows:

	<u><b>2020</b></u>
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 12,788,575</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to the decrease in the discount period	861,127
Benefits paid	(990,275)
Change in actuarial assumptions	36,280
Benefits accumulated, including experienced gains and losses	<u>697,113</u>
Net increase	<u>604,245</u>
Actuarial present value of accumulated plan benefits, end of year	<u><u>\$ 13,392,820</u></u>

The significant actuarial assumptions used in the January 1, 2020 valuation were:

Mortality table	Pri-2012 White Collar Mortality Table with MP-2019 scaling for January 1, 2020
Retirement	Weighted average retirement age of 65.5
Discount rate	7%
Long term rate of return	7%
Employee turnover	Based on plan experience

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

**Note 6: Plan Termination**

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination

**New York Community Hospital of Brooklyn, Inc.**  
**Employees' Pension Plan**  
**Notes to Financial Statements**  
**December 31, 2020 and 2019**

- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below
- d. All other vested benefits (that is, vested benefits not insured by the PBGC)
- e. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

**Note 7: Related-Party Transactions and Party-in-Interest Transactions**

Plan assets include money market mutual funds and other mutual funds managed by Vanguard Fiduciary Trust Company, the Plan's trustee. Investment management services fees paid to the trustee for investment management services were included as a reduction of the return earned. Trustee fees of \$5,411 and \$7,570 of clerical fees for 2020 and \$5,384 of trustee fees and \$7,466 of clerical fees for 2019 were paid to the trustee out of Plan assets. These transactions qualify as party-in-interest transactions.

**Note 8: Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

**New York Community Hospital of Brooklyn, Inc.**  
**Employees' Pension Plan**  
**Notes to Financial Statements**  
**December 31, 2020 and 2019**

Contributions are made and the actuarial present value of accumulated Plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

**Note 9: Tax Status**

The Plan has received a determination letter from the Internal Revenue Service dated December 23, 2014 stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

**Note 10: Subsequent Events**

Subsequent events have been evaluated through October 6, 2021, which is the date the financial statements were available to be issued.

Plan Year 1/1/2020 – 12/31/2020

**COST METHOD**

In accordance with PPA, the annual cost is equal to the target normal cost plus the shortfall amortization charge minus any prefunding and carryover balances.

Unit Credit method. The normal cost is the sum of the individual normal costs for active participants. The normal cost for an individual is the present value, as of the valuation date, of the participant's retirement, death, and withdrawal benefits which he is expected to accrue during the current plan year.

The actuarial accrued liability is the sum of the individual present values, for all participants, of the benefits accrued, based on service to the valuation date.

**ACTUARIAL ASSUMPTIONS**

Interest Rate (as prescribed by PPA and modified by MAP-21, HATFA and BBA)

**Without Adjusted Interest Rates:**

Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of September 2019.

**With Adjusted Interest Rates:**

Adjusted 24-month segment rates using 25-year average segment rate corridors under MAP-21, further adjusted by HATFA/BBA permissible corridors (90%/110%) for the plan year beginning in 2020.

**PBGC Premiums:**

Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of September.

	Without Adjusted Interest Rates	With Adjusted Interest Rates	PBGC Premiums
Segment 1 (0 to 5 years)	2.79%	4.75%	2.79%

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

The voluntary/deemed reduction of the funding standard carryover balance was \$0.

#### RATIONALE FOR ASSUMPTIONS

1. Prescribed Assumptions: The Interest Rates and Mortality Assumptions are prescribed by the IRS and/or Plan Sponsor elections.
2. The Retirement and Withdrawal Assumptions were chosen based on standard tables.
3. The Expected Return on Plan Assets and the Salary Projection assumptions were chosen based on guidance from the investment advisor and plan sponsor.

#### ASSET VALUATION

The actuarial value of plan assets is developed as the 3-year average of the plan assets based on the market value of assets as of the valuation date and the “adjusted value” of market assets for each of the two immediately preceding valuation dates. The adjusted value of assets at each preceding valuation date is equal to the market value of assets on such valuation date plus the net cash flow amount (including expected earnings on investments) for each following year up to the current valuation date. In this way, one third of the investment gain or loss over the preceding twelve months is recognized in plan assets immediately, and the other two thirds is deferred. Valuation assets are further limited to a 10% corridor around market value.
