Independent Auditor's Report

Board of Directors and Plan Administrator
New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan
Brooklyn, New York

Scope and Nature of the ERISA Section 103(a)(3)(C) Audit

We have performed audits of the financial statements of New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan (the Plan), an employee benefit plan subject to the *Employee Retirement Income Security Act of 1974* (ERISA), as permitted by ERISA Section 103(a)(3)(C) (ERISA Section 103(a)(3)(C) audit). The financial statements comprise the statements of net assets available for benefits as of December 31, 2024 and 2023, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management, having determined it is permissible in the circumstances, has elected to have the audits of the Plan's financial statements performed in accordance with ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted by ERISA Section 103(a)(3)(C), our audits need not extend to any statements or information related to assets held for investment of the Plan (investment information) by a bank or similar institution or insurance carrier that is regulated, supervised, and subject to periodic examination by a state or federal agency, provided that the statements or information regarding assets so held are prepared and certified to by the bank or similar institution or insurance carrier in accordance with 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA (qualified institution).

Management has obtained certifications from qualified institutions as of December 31, 2024 and 2023, and for the years then ended, stating that the certified investment information, as described in Note 3 to the financial statements, is complete and accurate.

Opinion

In our opinion, based on our audits and on the procedures performed as described in the Auditor's Responsibilities for the Audit of the Financial Statements section:

- The amounts and disclosures in the accompanying financial statements, other than those agreed to or derived from the certified investment information, are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.
- The information in the accompanying financial statements related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

Basis for Opinion

We conducted our audits in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Plan and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audits. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our ERISA Section 103(a)(3)(C) audit opinion.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error. Management's election of the ERISA Section 103(a)(3)(C) audit does not affect management's responsibility for the financial statements.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern within one year after the date that these financial statements are available to be issued.

Management is also responsible for maintaining a current plan instrument, including all plan amendments, administering the Plan, and determining that the Plan's transactions that are presented and disclosed in the financial statements are in conformity with the Plan's provisions, including maintaining sufficient records with respect to each of the participants, to determine the benefits due or which may become due to such participants.

Auditor's Responsibilities for the Audit of the Financial Statements

Except as described in the Scope and Nature of the ERISA Section 103(a)(3)(C) Audit section of our report, our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if, there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.

- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Plan's ability to continue as a going concern for a reasonable period of time.

Our audits did not extend to the certified investment information, except for obtaining and reading the certification, comparing the certified investment information with the related information presented and disclosed in the financial statements, and reading the disclosures relating to the certified investment information to assess whether they are in accordance with the presentation and disclosure requirements of accounting principles generally accepted in the United States of America.

Accordingly, the objective of an ERISA Section 103(a)(3)(C) audit is not to express an opinion about whether the financial statements as a whole are presented fairly, in all material respects, in accordance with accounting principles generally accepted in the United States of America.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matter – Supplemental Schedules Required by ERISA

The supplemental schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information included in the supplemental schedules, other than that agreed to or derived from the certified investment information, has been subjected to auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with GAAS. For information included in the supplemental schedules that agreed to or is derived from the certified investment information, we compared such information to the related certified investment information.

In forming our opinion on the supplemental schedules, we evaluated whether the supplemental schedules, other than the information agreed to or derived from the certified investment information, including their form and content, are presented in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

In our opinion:

- The form and content of the supplemental schedules, other than the information in the supplemental schedules that agreed to or is derived from the certified investment information, are presented, in all material respects, in conformity with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.
- The information in the supplemental schedules related to assets held by and certified to by a qualified institution agrees to, or is derived from, in all material respects, the information prepared and certified by an institution that management determined meets the requirements of ERISA Section 103(a)(3)(C).

New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

Note 1. Description of Plan

General

The following brief description of the New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information. The Plan, established January 1, 1977, is a noncontributory defined benefit pension plan sponsored by New York Community Hospital of Brooklyn, Inc. (NYCH). The Plan covers substantially all the sponsor's employees. It is subject to the provisions of the *Employee Retirement Income Security Act of 1974* (ERISA). The Plan was amended and restated effective January 1, 2012 to comply with the qualification requirements under the Internal Revenue Code, as amended, and qualification requirements identified for Cycle A Plans in the 2012 Cumulative List issued by the Internal Revenue Service in Notice 2012-76.

All employees are eligible to participate and become members in the Plan on January 1 of the year nearest attainment of 18 months of service (which incorporated at least 1,000 hours over a 12-month period) and the employee is at least age 20 1/2.

Effective July 1, 2023, the Plan was amended to change funding vehicle by purchasing one or more group annuity contracts to fund the accrued benefit and all other benefits to which annuitized participants are entitled under the Plan on and after the effective date of the group annuity contract to complete distribution of all such accrued benefits and benefits of each of annuitized participant.

Pension Benefits

Under the Plan, a participant is eligible for normal retirement benefits upon the later of attaining age 65 or the completion of five years of service. The normal retirement benefit for employees is an annual amount equal to 1% of the participant's average final compensation (the average of the highest five consecutive years of participation within the full 10 consecutive years of participation immediately preceding retirement), multiplied by the years of benefit service up to 30 years. The minimum normal or delayed retirement benefit cannot be less than \$100 per month. The maximum compensation used in the calculation of retirement benefits was \$345,000 for 2024 and \$330,000 for 2023.

If a participant terminates employment before their normal retirement date, the participant's benefit is calculated as 1% of average final compensation (the average of the highest five consecutive years of participation within the 10 full consecutive years of participation immediately preceding termination), multiplied by the years of service the participant would have accumulated if the participant remained employed until normal retirement date, limited to 30 years, and then multiplied by the ratio of the participant's years of participation at termination date to years of participation the participant would have accumulated if the participant remained employed until normal retirement date.

Death and Disability Benefits

A participant's beneficiary is eligible for death benefits if the participant dies in active service, or while accruing service, while disabled or if the participant dies after retiring or after terminating with entitlement to a vested benefit, but in either case before the participant's benefit payments commence. The death benefits will be payable to the participant's beneficiary for life if the beneficiary is a surviving spouse unless the spouse elects the benefit paid in the form of a lump sum. All other beneficiaries are paid out in the form of lump sum payment.

Notes to Financial Statements
December 31, 2024 and 2023

Funding Policy

The Plan's funding policy is for NYCH to contribute an amount which will meet or exceed the annual minimum funding requirements of ERISA. In 2024 and 2023, the plan sponsor's Board approved contributions of \$1,570,525 and \$907,000, respectively. As of December 31, 2024 and 2023, \$766,210 and \$367,000, respectively, was outstanding. These were remitted to the Plan subsequent to year-end and, as such, these amounts have been reflected as contributions receivable in the accompanying statements of net assets available for benefits. The sponsor's contributions for 2024 and 2023 exceeded the minimum funding requirements of ERISA. Although it has not expressed any intention to do so, the sponsor has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Note 2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Administrative Expenses

Trustee fees and clerical fees are paid from plan assets. Fees paid to Vanguard Fiduciary Trust Company for investment management services are paid by the Plan as a reduction of investment income. Actuary, accounting, and insurance fees are paid by the plan sponsor.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 3. Certification of Plan Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by ERISA Section 103(a)(3)(C) pursuant to 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company as of December 31, 2023 and for the year then ended and for the period January 1, 2024 through November 18, 2024, and Bank of America, N.A. as of December 31, 2024 and for the period November 19, 2024 through December 31, 2024, qualified institutions, have certified the following investment information included in the accompanying financial statements and ERISA-required supplemental schedules is complete and accurate:

- Investments and non-interest-bearing cash as shown in the statements of net assets available for benefits as of December 31, 2024 and 2023
- Investment income as shown in the statements of changes in net assets available for benefits for the years ended December 31, 2024 and 2023
- Investment information included in the accompanying schedule of assets (held at end of year) as of December 31, 2024 and the accompanying schedule of reportable transactions for the year ended December 31, 2024

The Plan's independent auditors did not perform auditing procedures with respect to this certified information, except for comparing such certified investment information to the related investment information included in the financial statements and ERISA-required supplemental schedules.

Note 4. Disclosures About Fair Value of Plan Assets

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Fair value measurements must maximize the use of observable inputs and minimize the use of unobservable inputs. The hierarchy comprises three levels of inputs that may be used to measure fair value:

- Level 1** Quoted prices in active markets for identical assets or liabilities
- Level 2** Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities, quoted prices in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities
- Level 3** Unobservable inputs supported by little or no market activity and that are significant to the fair value of the assets or liabilities

Recurring Measurements

Mutual funds are valued at the net asset value (NAV) of shares held by the Plan at the year-end.

New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

The following tables present the fair value measurements of assets recognized in the accompanying statements of net assets available for benefits measured at fair value on a recurring basis and the level within the fair value hierarchy in which the fair value measurements fall at December 31, 2024 and 2023:

	2024			
	Fair Value Measurements Using			
Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Money market fund	\$ 1,850,250	\$ 1,850,250	\$ -	\$ -
Mutual funds	10,943,439	10,943,439	-	-
	<u>\$ 12,793,689</u>	<u>\$ 12,793,689</u>	<u>\$ -</u>	<u>\$ -</u>

	2023			
	Fair Value Measurements Using			
Total	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	
Money market fund	\$ 400,957	\$ 400,957	\$ -	\$ -
Mutual funds	10,802,249	10,802,249	-	-
	<u>\$ 11,203,206</u>	<u>\$ 11,203,206</u>	<u>\$ -</u>	<u>\$ -</u>

Following is a description of the valuation methodology and inputs used for assets measured at fair value on a recurring basis and recognized in the accompanying statements of net assets available for benefits, as well as the general classification of such assets pursuant to the valuation hierarchy. There have been no significant changes in the valuation techniques during the years ended December 31, 2024 and 2023. The Plan had no liabilities measured at fair value on a recurring basis. In addition, the Plan had no assets or liabilities measured at fair value on a nonrecurring basis.

Investments

Where quoted market prices are available in an active market, securities are classified within Level 1 of the valuation hierarchy. If quoted market prices are not available, then fair values are estimated by using quoted prices of securities with similar characteristics or independent asset pricing services and pricing models, the inputs of which are market-based or independently sourced market parameters, including, but not limited to, yield curves, interest rates, volatilities, prepayments, defaults, cumulative loss projections, and cash flows. Such securities are classified in Level 2 of the valuation hierarchy. In certain cases where Level 1 or Level 2 inputs are not available, securities are classified within Level 3 of the hierarchy.

Note 5. Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to: (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation and credited service. The accumulated plan benefits for active employees are based on their compensation during the five years ending on the valuation date. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

The actuarial present value of accumulated plan benefits is determined by the Plan's actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefits at January 1, 2024 were as follows:

Vested benefits	
Participants currently receiving payments	\$ 3,131,700
Other participants	<u>10,388,218</u>
	13,519,918
Nonvested benefits	<u>-</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 13,519,918</u>

Changes in actuarial present value of accumulated plan benefits were as follows:

	<u>2024</u>
Actuarial present value of accumulated plan benefits, beginning of year	<u>\$ 15,591,357</u>
Increase (decrease) during the year attributable to:	
Increase for interest due to the decrease in the discount period	905,755
Benefits paid	(3,366,308)
Change in actuarial assumptions	(1,129,922)
Benefits accumulated, including experienced gains and losses	<u>1,519,036</u>
Net decrease	<u>(2,071,439)</u>
Actuarial present value of accumulated plan benefits, end of year	<u>\$ 13,519,918</u>

**New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023**

The significant actuarial assumptions used in the January 1, 2024 valuation were:

Mortality table	Pri-2012 White Collar Mortality Table with MP-2021 scaling for January 1, 2022
Retirement	Weighted average retirement age of 65.5
Discount rate	6.50%
Long-term rate of return	6.50%
Employee turnover	Based on plan experience

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made as of January 1, 2024. Had the valuations been performed as of December 31, there would be no material differences.

Note 6. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. Benefits attributable to employee contributions, taking into account those paid out before termination
- b. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. government agency) up to the applicable limitations discussed below
- d. All other vested benefits (that is, vested benefits not insured by the PBGC)
- e. All nonvested benefits

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

New York Community Hospital of Brooklyn, Inc. Employees' Pension Plan
Notes to Financial Statements
December 31, 2024 and 2023

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

Note 7. Related-Party Transactions and Party-in-Interest Transactions

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association or relatives of such persons.

Plan assets include money market mutual funds and other mutual funds managed by Vanguard Fiduciary Trust Company and Bank of America, N.A., the Plan's trustees. Investment management services fees paid to the trustee for investment management services were included as a reduction of the return earned. Trustee fees of \$12,946 and \$13,207 of record-keeping fees were paid to Vanguard Fiduciary Trust Company out of plan assets in 2024 and 2023, respectively. There were no fees paid to Bank of America, N.A. out of plan assets in 2024. Additionally, \$112,948 was paid to Pension Benefit Guaranty Corporation in 2023. These transactions qualify as party-in-interest transactions.

The sponsor provides certain administrative services at no cost to the Plan.

Note 8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Note 9. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated December 23, 2014 stating that the Plan and related trust, as then designed, were in compliance with the applicable requirements of the Internal Revenue Code and therefore not subject to tax. The Plan Administrator believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 10. Subsequent Events

Subsequent events have been evaluated through October 10, 2025, which is the date the financial statements were available to be issued.

COST METHOD

In accordance with PPA, the annual cost is equal to the target normal cost plus the shortfall amortization charge minus any prefunding and carryover balances.

Unit Credit method. The normal cost is the sum of the individual normal costs for active participants. The normal cost for an individual is the present value, as of the valuation date, of the participant's retirement, death, and withdrawal benefits which he is expected to accrue during the current plan year.

The actuarial accrued liability is the sum of the individual present values, for all participants, of the benefits accrued, based on service to the valuation date.

The actuarial liabilities shown in this report are determined using software purchased from an outside vendor which was developed for this purpose. Certain information is entered into this model in order to generate the liabilities specific to your pension plan. These inputs include economic and non-economic assumptions, plan provisions and census information. We rely on the coding within the software to value the liabilities using the actuarial methods and assumptions selected. Both the input to and the output from the model is checked for accuracy and reviewed for reasonableness.

ACTUARIAL ASSUMPTIONS

Interest Rates

Without Adjusted Interest Rates under Funding Relief:

Liabilities are valued using the three segment rates based on the 24-month average of the corporate bond yield curve published by the Secretary of the Treasury for the applicable month of September 2023.

With Adjusted Interest Rates under Funding Relief:

The interest rates are the adjusted 24-month segment rates using 25-year average segment rate corridors of 95% to 105% per Funding Relief.

PBGC Premiums:

The Plan Sponsor is using the Alternative Method to determine the Variable Rate Premium.

	Without Adjusted Interest Rates	With Adjusted Interest Rates	PBGC Premiums
Segment 1 (0 to 5 years)	3.62%	4.75%	3.62%
Segment 2 (5 to 20 years)	4.46%	4.87%	4.46%
Segment 3 (20+ years)	4.52%	5.59%	4.52%
Effective Rate	4.44%	5.14%	4.44%

Disabled – 2024 Annuitant and Non-annuitant Mortality Tables provided in IRC Regulation §1.430(h)(3)-1(e)

Salary Projection – 3.5% per year

Form of Payment - 80% of participants are assumed to elect a lump sum and 20% are assumed to elect a 10 Year Certain and Life annuity.

Retirement Age – 50% at age 65 and 100% at age 66

Disability Rates – None

Withdrawal Rates – V-Table ultimate rates as published in The Pension Forum in August 1992 by the Society of Actuaries.

Illustrative rates of withdrawal are shown below:

<u>Age</u>	<u>Rate</u>
25	13.6%
30	10.1%

Lump Sum Payments: Conversion

For funding valuation purposes, the “annuity substitution rule” is utilized.

The underlying assumptions for the payment include the 417(e) Unisex mortality basis, and interest rates assumed to be equivalent to the discount rate used for the disclosure.

Lump Sum Assumptions (for ASC 960) - Lump sum amounts are valued using the December rates under IRC 404(o) prior to the valuation date and the mortality table as described under IRC §417(e)(3).

Future Increases in Maximum Benefits and Plan Compensation Limitations

Accrued benefits projected to be paid in future years are limited to the maximum presently allowed under IRC §415. Plan compensation is limited to the maximum presently allowed under IRC §401(a)(17). No provision is made for future increases in the maximum annual benefit or compensation limit.

Credit Balances – Excess contributions plus interest for the 2023 plan year in the amount of \$0 were elected to be added to the prefunding balance. The voluntary/deemed reduction of the funding standard carryover balance was 0.

The voluntary/deemed reduction of the prefunding balance 0.

Expense Load – \$126,155 has been included in the Target Normal Cost to reflect expected administrative expenses to be paid from the Plan Trust.

Expected Return on Plan Assets for Asset Smoothing and ASC 960 purposes – 6.50%

RATIONALE FOR ASSUMPTIONS

1. Prescribed Assumptions: The Interest Rates and Mortality Assumptions are prescribed by the IRS and/or Plan Sponsor elections.
2. The Retirement and Withdrawal Assumptions were chosen based on standard tables.
3. The Expected Return on Plan Assets and the Salary Projection assumptions were chosen based on guidance from the investment advisor and plan sponsor.

ASSET VALUATION

The actuarial value of plan assets is developed as the 3-year average of the plan assets based on the market value of assets as of the valuation date and the “adjusted value” of market assets for each of the two immediately preceding valuation dates. The adjusted value of assets at each preceding valuation date is equal to the market value of assets on such valuation date plus the net cash flow amount (including expected earnings on investments) for each following year up to the current valuation date. In this way, one third of the investment gain or loss over the preceding twelve months is recognized in plan assets immediately, and the other two thirds is deferred. Valuation assets are further limited to a 10% corridor around market value.

ACCRUED AND VESTED BENEFITS

Vested benefits are based on the plan document’s vesting schedule based on years of service. Please refer to the Summary of Plan Provisions section of this report for requirements for particular benefits.

Schedule SB, Part V – Summary of Plan Provisions
Plan Year 1/1/2024 – 12/31/2024

Original effective date	January 1, 1977, as amended and restated January 1, 2012.
Plan year	January 1 to December 31.
Participation Date	January 1 nearest the attainment of age 20.5 and the completion of 18 months of service provided employee has completed 1,000 hours of service during any Applicable Computation Period.
Years of Service	One full year granted for each year from date of hire in which participant completes 1,000 hours of service. 190 hours of service are credited for each month in which an employee completes at least one day.
Participation Service	Years of Service measured from the Participation Date.
Annual compensation	W-2 earnings. No compensation over the 401(a)(17) limit is recognized.
Final Average Compensation	The average of the highest 5 consecutive years of service within the full 10 consecutive years of service immediately preceding termination or retirement.
Normal Retirement:	
Eligibility	The first day of the month coinciding with or next following the later of age 65 or the completion of 5 Years of Service.
Amount	1% times Final Average Earnings times Years of Service at Normal Retirement Date subject to a maximum of 30 years. In no event shall the Normal Retirement Benefit be less than \$100 per month.
Deferred Retirement:	
Eligibility	The first day of the month following separation from service after Normal Retirement Date
Amount	1% times Final Average Earnings times Years of Service at the Deferred Retirement Date subject to a maximum of 30 years. In no event shall the Deferred Retirement Benefit be less than \$100 per month.

Termination:

Eligibility	Termination with vested rights.
Amount	1% times Final Average Earnings times Years of Service at Normal Retirement Date subject to a maximum of 30 years, multiplied by the ratio of Participation Service at date of termination to anticipated Participation Service at Normal Retirement Date. Benefit is payable commencing at Normal Retirement Date. Alternatively, the participant may elect to receive the benefit in the form of a lump sum or actuarially reduced immediate annuity at an earlier date.
Vesting schedule	Members are 100% vested upon entry into the plan

Pre-retirement death:

Eligibility	Death of a participant prior to commencing retirement benefits or making a valid benefit election under the plan.
Amount	Lump sum equivalent of the accrued benefit payable upon the death of the participant. Surviving spouses are entitled to a Preretirement Survivor Annuity in the amount that would have been payable had the participant retired and immediately commenced receiving a retirement benefit on the day before the participant's death with the Statutory Joint and Survivor Annuity in effect.

Normal form of payment:

Non-Married	Life annuity with 10 years certain.
Married	50% Joint and Survivor, actuarially reduced.

Optional Forms

Life Annuity
Joint and Survivor (50%, 66-2/3%, 75% or 100%)
Certain and Continuous Annuity (60 or 120 months)
Lump Sum

Actuarial Equivalence

For determining annuities commencing prior to normal retirement and optional forms of annuity: 6% interest and the 1971 Group Annuity Mortality Table for males. For determining lump sums: The applicable interest rate and mortality table under IRC Section 417(e) with the applicable interest rate determined for the second calendar month preceding the beginning of the plan year.
